

### 30. Verbesserungsvorschläge

What could be improved in the future?

	Anz
Keine Angabe	1
Altough i have found the lecture satisfying and really interesting, the learning course and the effort for understanding was really high	1
Assignments: more time or less complicated tasks to finish in a week	1
everyone need some basic skills	1
For me doing assignments and parallely preparing for presentations was little difficult	1
I think in this lecture we have many things to do and we did not have enough time ro prepare ourselfe	1
I think the time for doing everything for next week is to short	1
In this lecture slides are provided and prepared by students	1
Maybe we can have more time to prepare for our tasks	1
More deep teaching	1
More help	1
More related workshops for bootstrap or the business of web developement	1
More time to work on the final presentation	1
Not everyone has developed experiences	1
The assignment is a little heavy when i have a lot of courses	1
The course overall was extremely timo consuming: the requirements for students were high	1
The ordering of each topic and the possibility be changed	1
This course has many people without the nessecary assignments needed,Some presentations were hard to follow	1
Too less time	1
Too much work	1
We should have more exercise classes	1
Work from home on the project	1
You provide some valuable notes which define all concepts	1
