

3 hours are too long to be able to concentrate until the end

Alles super

Auch die Themen, die er versucht zu vermitteln sind unklar

Der Lehrer ist sehr nett

Der Übungsleiter spricht undeutlich auf englisch und man kann nicht verstehen, was er sagt

Everything is good, just exercise instructor could be better

HiWi ist nicht gut, spricht zu langsam und man kann ihn nicht verstehen

I like the classes, they are understandable

Need to explain more about exam requirements

Please change the Übungsperson

Please more examples of exams

Sorry, but we don't understand him, not only languagewise but he also just reads the answers to the problems

Talk more about the way of examination

The content delivered is good in general but not at all helpful to pass the exam, same with the exercises.

The exercises could be improved, if there are no debugging and code writing in the exam it shouldn't be in the exercises

The lecturer is very nice

The videos are really useful

The way questions are asked is confusing

There is no connection between exercises and lectures
